

Speaker Profile: Julian South

Dr Julian South is a graduate in Plant Biology with a PhD in the field of starch chemistry and has worked at CCFRA since November 2007. Dr South is currently Head of Department for Chemistry and Biochemistry, managing the largest department at CCFRA, which delivers a high proportion of contract research and testing for industry and public sector clients. Prior to joining CCFRA Dr South spent 16 years working in industry for Cadbury Schweppes and Allied Domecq. He held a number of roles in these companies which included managing laboratory operations which were responsible for producing in-house industry data which was used for calculation of nutrient composition of products as used for on-pack labelling. Dr South was also closely involved with product reformulation using novel ingredients and hence has worked closely with suppliers of food ingredients.
